Would you like to give us your full name? (optional)	Xuehua Zhan
What is your specialty and where were you working before commencing the placement?	Spine General Hospital of Ningxia Medical University. China
What were your objectives for joining the ICENI Centre Clinical Attachment programme?	1.To study the developed medical skills and ideas about spine surgery 2.To improve my English level
How was the support you received from the ICENI Centre team prior and during the placement?	All-sided and effective
How would you describe your experience with the clinical team and activities you undertook?	Impressive
What benefits did it give to you?	A good communication with the patient is quite essential before making the surgery decision.
Would you recommend joining the ICENI Centre Clinical Attachment programme?	Yes. I will.
What are your plans for the future after the Clinical Attachment programme finishes?	1. keep in touch with my supervisor and English teacher in the UK. 2.try my best to pass the IELTS 3.to have a 1-2year fellowship in the future if possible with my family
TESTIMONIAL: (please write a short personal feedback of your experiences with us) Being a clinical attachee for nearly three months, I gradually become a "member" in the team. I have been familiar with the colleagues in the theatre and clear about the National Healthcare Service system. Although there's a big difference between the UK and China medical current situation, optimising the most minimal invasive procedure to get a speedy recovery is the golden standard.
